

AIRFIELD NAME		February 20	CAMBRIDGE		EGSC	Central
CALLSIGN (A/C RADIO)		Cambridge Tower			125.90	
CALLSIGN (ES/VATSIM)		EGSC_TWR			Elev.47 ft	
LOCATION		Lat: N052.12.18.000	Long: E000.10.30.000		Elev. ft	
LOCATION GEOGRAPHIC		1.5nm NE of Cambridge			App. 123.60	
CHART SOURCE		NATS	NO NORDO AIRCRAFT		QFE= QNH-1 HPscIs	
METAR AIRPORT		EGSC 134.6	GA A/C PARK ON GA GRASS PARKING		Conspicuity	
NAV AIDS	NDB; CAM 332.50kHz		ILS 23 111.30MHz		SPECIAL RULES	
RUNWAYS	Headings	Dimension	Surface & notes		WHEN RVR IS LESS THAN 400M.	
	05 / 23	1965m x 46m	Asphalt		DEPARTURES AT PILOTS' DISCRETION. [IFR]	
AIRSPACE	05R / 23L	899m x 35m	Grass		WHEN RVR < 250M. NONE, -A/D CLOSED.	
	CLASS G	Transition level 6000ft	Airspace above Class C Base FL195 London FIR		GO-AROUNDS Runway 05/23 GRASS.	
CIRCUITS	Multi engine A1500ft QNH Other fixed wing A1000ft Helicopters A700ft QNH		All Circuits to South. 23 LH. 05 RH.		MAINTAIN RUNWAY HEADING UNTIL ADVISED by ATC, with possible altitude restriction or change. Due possible parallel runway operations.	
NO FLY AREAS	UNLESS LANDING OR TAKING OFF , NOT BELOW A2000ft, WITHIN 3nm of Cambridge City, see below. Remain well clear of NEWMARKET area, below A2500, due racing stables.					
LOCAL HAZARDS	When Taxiing on Grass, keep to cut taxiways, all other grass areas unfit for A/C. When large A/C are using the Engine Test Bay. Taxiway A may be closed.					
REMARKS	<p>GA Grass Parking is laid out on a grid system, 4 rows of 8 bays.</p> <p>DEPARTURES: MAIN RUNWAY.</p> <p>RUNWAY 05: VFR A/C should request/use GRASS runway if able. ALWAYS call to cross main runway. A/C requiring a LEFT turn (North), AVOID Cambridge City below A2000ft QNH.</p> <p>A/C requiring a RIGHT turn (South) or into circuit, Turn when able BUT NOT BELOW 500ft or as ATC.</p> <p>RUNWAY 23:</p> <p>A/C requiring a RIGHT turn (North), AVOID Cambridge City below A2000ft QNH.</p> <p>A/C requiring a LEFT turn (South) or into circuit, Turn when able BUT NOT BELOW 500ft or as ATC.</p> <p>DURING NEWMARKET RACES the A/D gets VERY busy with LARGE transport A/C delivering & collecting international horses. ALWAYS USE THE HOLD AS SHOWN to allow for wingspans of visiting A/C. Also there will be increased corporate activity, to/from racecourse.</p>					
HELICOPTER OPERATIONS	<p>Helicopters are requested to join the circuit via one of 3 HVRPs. see charts below</p> <p>North: Heli November, Reservoir, (PlanG VRP = 52.267106/0.2245330)</p> <p>East: Heli Echo, Plantation S of A14, (PlanG VRP= 52.212583/0.250851)</p> <p>South: Heli Sierra, Golf Course, (PlanG VRP= 52.165351/0.1812744)</p> <p>Contact TOWER NOT LESS than one minute from HVRP, AT A700ft.</p>					
ALL PILOTS: PLEASE PUT YOUR A/C CALLSIGN AFTER YOUR NAME on TEAMSPEAK. NOT TO BE USED FOR REAL OPERATIONS	<p>REMAIN CLEAR OF Cambridge City and avoid local villages if possible.</p> <p>Wheeled and heavy helios will use hard runway/taxiways. light Helios, AS ADVISED BY ATC.</p> <p>Expect SET DOWN point, between J and C, or Heli1 or 2 with Hover taxi STRAIGHT across main runway (when cleared) then via hold Charlie and heli route as shown below.</p> <p>Departures as directed by ATC. NOTE Heli1 and 2 may be assigned for Helio training.</p>					

The A/D is frequently used by A/C with large wing spans.
ALWAYS use the holds as shown. NEVER CLOSER TO THE MAIN RUNWAY

- Hovertaxi routes.
- Helio Holds if needed.
- IF possible ATC will use**
- HELI set down point, when busy Helios will use Heli 1 or 2 or designated runway

GA A/C will park on GRASS parking, as shown.
GA A/C should (request) and use GRASS runway, if able.
USE HOLDS AS SHOWN
CALL to cross MAIN Runway
